MIDDLESBROUGH

**GETTING BRITAIN
WORKING AGAIN**

WORK IS CHANGING & WE'RE HERE TO HELP.

It's a new landscape and an unprecedented situation for all individuals and businesses alike. We've helped many essential services and businesses to keep operating during the crisis and we want to use that knowledge to get the rest of Britain working again.

03 | External

From the car park to the entrance.

05 | Entrance

Staying safe but keeping the welcome warm.

09 | Workplace

Keeping everyone safe whilst they work.

12 | Safety Signage & Equipment

Workplace signage to protect and remind.

PORTABLE SNEEZE SCREENS

Choose from our affordable range of sneeze guards to help keep clients and employees safe, with both standard and bespoke sizes available upon request.

Specification

Soon to be a part of everyday life, sneeze screens are vital in limiting the spread of the virus. Our range is available as plain, clear screens or with printed detail dependant on your requirements.

GBW005 - Clear plastic substrate with a range of fixing kits for suspended or plaster ceilings. Standard size of 1000mm square.

GBW006 - Printed desktop sneeze guard with serving aperture and clear viewing section. Standard size of 600mm (w) x 900mm (h).

GBW007 - Portable dividers are easy to assemble and just as easy to move around your workplace. Available on a range of banner stand products, each screen is provided clear or we can also print to the face for additional messaging or branding.

GBW008 - Printed freestanding sneeze guard with transaction hatch and clear screen section. Standard size of 1000mm (w) x 2200mm (h).

RECEPTION SCREENS

Elegant acrylic screens and bespoke aluminium framed products for a more permanent and premium solution. Available in standard and bespoke sizes, and with a range of fitting options to suit your needs.

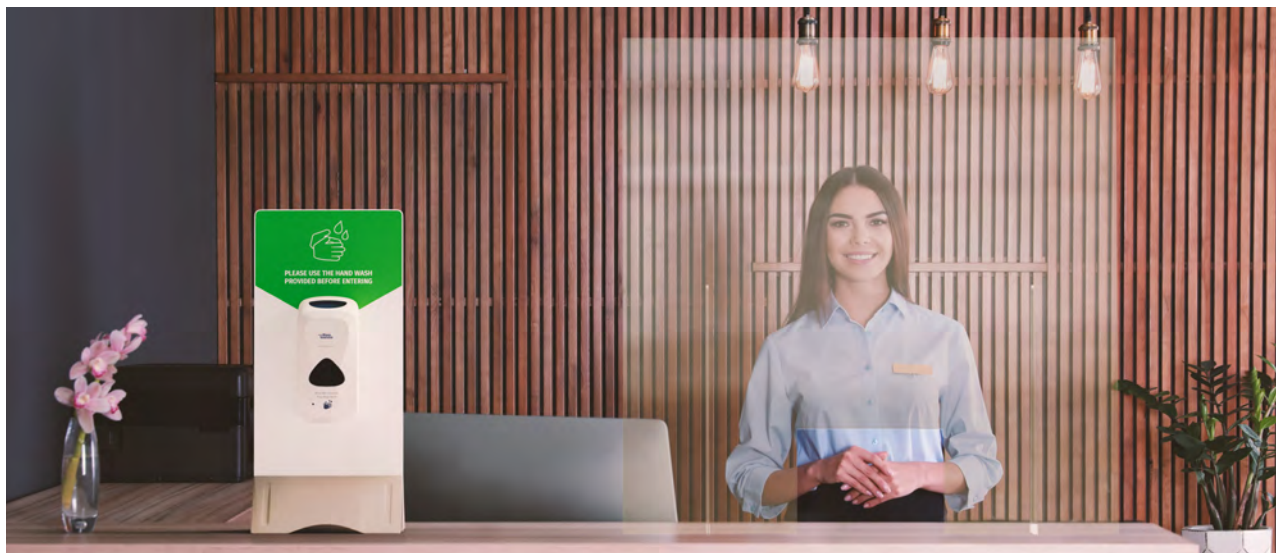

Specification

Each solution is completely customisable, with or without printed detail, cut out serving hatches, and tailored to your individual site requirements.

GBW009 - Flat pack acrylic screen with serving hatch and available with or without branding. Standard size of 900mm square.

GBW010 - A more sophisticated and permanent solution, our aluminium framed units can be designed and manufactured to your specific needs, offering a much more flexible system.

Choose from full glazed desktop versions for screening off high traffic areas such as receptions or mix with “serving” frames for safe interaction with visitors and staff. A fully bespoke offering with the support of our experienced team who are on hand to survey, plan, and install whichever solution best suits your needs.

RECEPTION OR CUSTOMER AREAS

Help your employees stay safe with social distancing reminders and hand sanitising stations when entering or leaving the building.

Specification

Safe branding solutions with bespoke branding and messaging available:

GBW011 - Rigid back board with automatic hand dispenser to the face. Single and double sided versions available. Unit shown is available in 300mm or 600mm (w) x 1500mm (h). Desktop and wall mounted versions are also available (Page 14).

GBW012 - Printed door mats with social distancing messages. Supplied on an anti-slip rubber backing and can be machine washed for extended use.

GBW013 - Public information posters in sizes ranging from A5 up to A0 and above, and on a variety of materials for direct application, fixing into frames or mounting to walls. Temporary adhesives mean these can be easily moved or updated when the need arises.

WORKPLACE SPACES FOR OFFICE SPACE OR FACTORY

Freestanding Screens

Desktop Screens

MODULAR FREE STANDING SCREENS

Create a safe space for work without making drastic changes to your office layout or furniture. All frames can be designed to fit your desks or space perfectly.

Specification

Aluminium frames with clear acrylic panels supplied with or without print. We offer a bespoke design service to create a wide range of modular options such as serving areas, non glazed sections and numerous other configurations allowing for greater flexibility with your designs.

GBW014 - Modular free standing screens with a range of options to create your own individual configurations.

You can add more units for a longer wall or use corner returns to enclose desks on all sides.

For more flexibility we can also utilise horizontal dividers with or without panels or mix opaque panels and print to increase your creative expression within your office space.

WORKSPACE SCREENS

Standard solutions for single or multiple desks that allow your staff to get back to work with as little disruption as possible.

Specification

Aluminium profile frames with clear acrylic panel inserts supplied with or without printed detail. Each option can be tailored to suit your needs.

GBW015 - Enclosed units that allow for safe social distancing between neighbours on all sides. Self supporting, these desk dividers can be installed easily for safe long term use.

GBW016 - Free standing desktop dividers to keep colleagues safe whilst allowing for the use of the desk space in-between. Ideal non intrusive solution.

GBW017 - U-shaped frames give protection on three sides and are easily installed and moved on site if necessary.
